

# PACK EXPO Facilities & Infrastructure Directory

September 27-29, 2021  
Las Vegas Convention Center  
Las Vegas, Nevada USA

## Reach professionals responsible for plant expansion, maintenance and improvement.

Unless you are exhibiting packaging or processing technologies, it's easy to get lost at PACK EXPO. If you're a PACK EXPO exhibitor, selling **building or plant infrastructure products, items pertaining to plant operations, utilities or ventilation products, or design/build and engineering services**, this directory is for YOU! We'll identify the audience you are trying to reach in a vehicle that is specifically designed for you and your target prospects.

## Key facts about the PACK EXPO Facilities & Infrastructure Directory:

- Printed directory mailed to pre-registered PACK EXPO attendees who indicate plans for plant expansion as well as key titles, such as plant managers, plant engineers, and select senior engineering and manufacturing management titles
- Projected distribution is approximately 5,000
- Also sent by e-mail as a PDF
- Each cover is personalized with the recipient's name
- Each listing includes a logo, booth number, website, brief exhibit description and photo
- The directory is divided into four sections:
  - **Building infrastructure**
  - **Plan operations**
  - **Utilities & ventilation**
  - **Design/build & engineering services**
- Reservations and materials due TBD

**SECTION 1** Building infrastructure

**DYNACO** High Performance Doors  
www.dynacodoors.com  
N-5267

**Mitek** Global Partnership. Local Solutions.  
www.cubicedesigns.com

**High-performance doors for food industry**  
M2 Freezer door facilitates the quick movement of people and products in and out of freezer rooms, minimizing temperature loss to save energy, reduce costs, and comply with food safety requirements. Also all-weather roll-up doors and large wind-resistant doors for outside applications.

**Customized mezzanines save space**  
Steel mezzanines for storage, conveyor support, and maintenance platforms can be a cost-effective way to help expand and maximize your facility space. Elevate equipment
