PACK EXPO
LAS VEGAS
September 11–13, 2023
Las Vegas, Nevada USA

GAME PLAN

Compiled for **Margaret Elizabeth Wilson** at **MARS WRIGLEY**

Your personal show goals and interests are reflected in the 1206 products and 188 companies featured in this guide.

CATEGORIES YOU CHOSE:

Processing Machinery

Capsules, tablets & soft gelatin equipment
Dry processing & ingredient handling equipment
Liquid processing & handling equipment
Food processing equipment

Business Interest

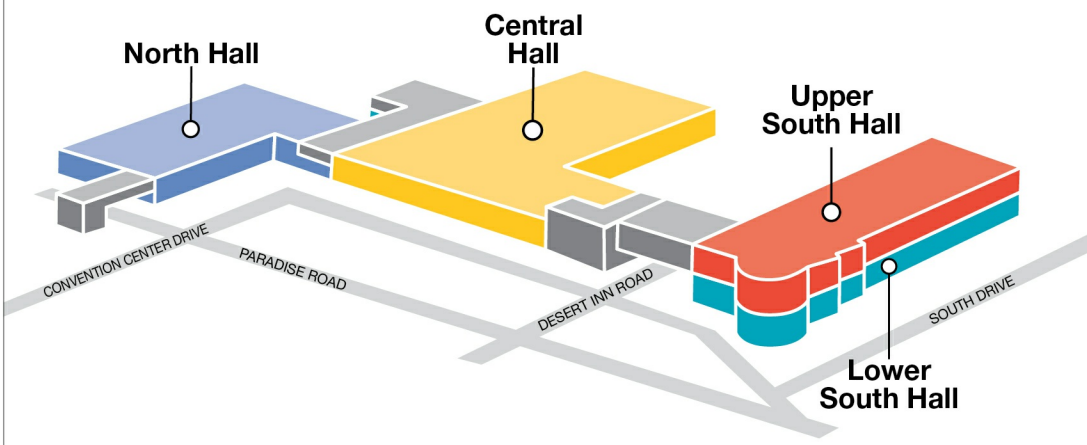
Life Sciences
E-commerce
Logistics
Sustainability
Plant Facilities, Infrastructure & Operations

Packaging Materials

Closures
Protective/transport packaging
Multipacks/handles/carriers
Blisters/clamshells/thermoforming materials
Packaging consumables
Containers
Flexible packaging

Start planning your PACK EXPO Las Vegas experience with the help of this walking guide customized for you based on your selected categories of interest.

With more than 1,500+ exhibitors, we know you won't be able to visit every booth. Compiled in these pages are location and product details for select exhibitors to add to your must-see list.



Las Vegas Convention Center
Las Vegas, Nevada

PMMI MEDIA GROUP

PACK EXPO LAS VEGAS

GET INSIGHT FROM INDUSTRY INSIDERS

INNOVATION STAGE

Innovation Stage: Get a heads up on industry developments with up-to-the-minute content. Learn about breakthroughs and discoveries, new products, and best practices during fast-paced, 30-minute seminars presented on three stages addressing dozens of topics.

PROCESSING INNOVATION STAGE

Processing Innovation Stage: Find out about the latest breakthroughs in food and beverage processing, including food safety, HPP, sustainability, cleaning and more in 30-minute seminars. Content is targeted to food and beverage manufacturers.

THE FORUM
AN INDUSTRY KNOWLEDGE EXCHANGE

The Forum: Enjoy a rare opportunity to discuss common issues and collaborate on solutions with peers from other companies. These 45-minute sessions kick off with a short introduction to the topic by a moderator before participants break into roundtables.

REUSABLE PACKAGING LEARNING CENTER RPA

Reusable Packaging Learning Center: Learn about incorporating reusable assets for the transport and handling of goods into your supply chain reusables, increasing its sustainability and efficiency. Hear directly from suppliers and users of reusable packaging systems about topics such as logistics, intelligent supply chains, value assessment and more.

Sponsored By
Reusable Packaging ASSOCIATION

INDUSTRY SPEAKS

Industry Speaks: Hear from those who have their pulse on the industry. Leading associations will discuss the latest hot topics affecting the packaging and processing community. Topics range from the implications of present and future packaging policies, envisioning the future of food manufacturing facilities, to the business case for SLAM solution in e-commerce fulfillment. The panel will also shed light on the factors driving interest in the contract packaging and manufacturing industry.

Sustainability STAGE

Sustainability Stage: Hear from industry experts on a range of packaging sustainability topics and receive actionable advice on how to make your brand more sustainable. Listen in on these sessions located in Sustainability Central, a new, must-see destination aimed to help guide you through a complete understanding on how to achieve packaging sustainability and what the means for your brand.

PACK EXPO LAS VEGAS

SUSTAINABILTY FINDER

Sustainability Stage: Hear from industry experts on a range of packaging sustainability topics and receive actionable advice on how to make your brand more sustainable. Listen in on these sessions located in Sustainability Central, a new, must-see destination aimed to help guide you through a complete understanding on how to achieve packaging sustainability and what the means for your brand.

Sustainability STAGE

MONDAY, SEPTEMBER 11

10:00 AM - 10:30 AM **Global Buisness Director for Circular & Renewable Solutions**
Daniella Souza Miranda, Global Buisness Director for Circular & Renewable Solutions, DOW

11:00 AM - 11:30 AM **Unlocking the Power of Sustainability in Logistics: A Profitable Approach for Corporate Success**
Oren Zaslansky, Founder & CEO, Flock

12:00 PM - 12:30 PM **Increasing Packaging Efficiency Without Decreasing Quality**
AJ Piejko Brown, Packaging Design Engineer, Lovevery

1:00 PM - 1:30 PM **Leveraging Sustainable Packaging to Engage Consumers**
Mikey Pasciuto, Co-Founder, ScrAPP

2:00 PM - 2:30 PM **Injecting Innovation into Sustainable Packaging**
Dustin Wills, VP of North American Sales, Paperfoam

3:00 PM - 3:30 PM **Thrown Away: One Man's Trash is Another Man's Treasure** *Moderated by* ***Brent Lindberg***
Dylan Layfield, VP, Material Sales & Recycling, Terracycle
Tamsin Ettefagh, Chief Sustainability and EVP of Commercial, Purecycle
Lon Pschigoda, General Manager - WMU Paper Pilot Plants, Western Michigan University
Steve Lyons, Director, Strategic Environmental Analysis, SCBAcci Consulting Group

4:00 PM - 4:30 PM **Packaging Labels: Chasing the right marks, words, and messages. A discussion with AMERIPEN**
Dan Felton, Executive Director

TUESDAY, SEPTEMBER 12

10:00 AM - 10:30 AM **Style that fits: building your packaging wardrobe**
Brent Lindberg, Founder/Head of Curiosity, Fuseneo

11:00 AM - 11:30 AM **Revealing Value in Plastic Waste**
Noah Wigington, Sustainability, Coca-Cola

12:00 PM - 12:30 PM **Alternative Sustainable Materials: The Future of Packaging with Cruz Foam and Atlantic Packaging**
Kyle Pischel, Atlantic Packaging • Toby Corey, Executive Chairman & COO of Cruz Foam, CruzFoam

1:00 PM - 1:30 PM **Revealing Value in Plastic Waste**
David Katz, Founder and Chairman, Plastic Bank

2:00 PM - 2:30 PM **Tuesday Afternoon Quarterbacks** *Moderated by* ***Brent Lindberg***
Cory Connors, Director of Sustainable Packaging, Landsberg Portland
Adam Peek, Senior Vice President Of Sales, Meyers
Evelio Mattos, Creative Director of Packaging, International Direct Packaging
Jonathan Quinn, Director of Market Development & Sustainability, Pregis

3:00 PM - 3:30 PM **Innovative materials compete for a winning spot against entrenched incumbents**
JR Siegel, Senior Director of Product Innovation, Worldly

4:00 PM - 4:30 PM **TBD**
Cecilia Coates, Global Sustainability - Climate and Water Lead, Colgate

WEDNESDAY, SEPTEMBER 13

10:00 AM - 10:30 AM **TBD**
Molly Hladik, Manager, Global Research & Development, Michelman

11:00 AM - 11:30 AM **TBD**
Mike Prokopeak, Senior Director, Content and Brand Growth, PMMI

Schedule as of July 10th, 2023. See Innovation Stage to scan for the latest schedule.

amcor

SU- 7244

Powering a more sustainable future

www.amcor.com/pack-expo

The most responsible packaging solutions are driven by the best packaging partner. One with data-driven tools to assess materials, and recyclable, reusable and recycled content solutions to help power a circular economy for packaging.

CGP COATING INNOVATION EXPAL

SL-6169

Specialty Recyclable Coated Paper

www.cgp-expal.com

Step into a greener future with our eco-friendly design featuring our coated paper product range, embracing our sustainable values while ensuring recyclable materials for a safer and sustainable world.

FELINS SIMPLIFY · SOLVE · SUSTAIN

SU- 7233

Efficiency Meets Sustainability with Felins

www.felins.com

Felins offers sustainable packaging machinery including banding systems, wrapping machines, tying equipment, sleevers, labelers, and more. Our solutions are efficient, cost-effective, and suitable for all industries. Trusted by companies of all sizes, our packaging experts will help you find the perfect option that meets your needs and exceeds your expectations.

good. natured
better everyday products

N-9027

Innovatively designed earth-friendly packaging

www.goodnaturedproducts.com

From plant-based PLA and Bio-PET food containers, bio-based industrial materials, and custom thermoformed packaging solutions, we are focused on making it easy and affordable for business owners and consumers to shift away from petroleum to better everyday products® that use more renewable materials, less fossil fuel, and no chemicals of concern.

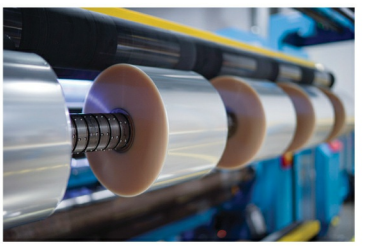
INTEPLAST GROUP

SU- 7197B

Superior Flexible Packaging & Stretch Films

www.inteplast.com

Inteplast Group will debut its new BOPE films designed to replace traditional non-PE outer webs, as well as its low seal initiation temperature sealant webs with enhanced performance properties. Inteplast Engineered Films will present its InteGreen™ family of sustainable films. AmTopp will feature its Pallet Lock® coreless pre-stretch hand film & patented dispenser.



MORRIS PACKAGING

N- 9607

2030 Sustainability goal achieved TODAY

https://www.morrispkg.com

100% Recyclable - Store Ready Drop Off - Now available with Recycled Content in Stand Up Pouches, Flat Bottoms, Quads, and Rollstock

PakTech

C-4003

Where Sustainability Meets Durability

www.paktech-opi.com

PakTech is a global leader in sustainable secondary packaging. Their handles are trusted by big CPG brands, retailers, and small businesses worldwide. With a focus on the circular economy, PakTech's 100% recycled and recyclable handles offer cost-effective solutions for brands committed to sustainability. They also build durable applicators for easy automation.

Sealstrip CORPORATION
Making Packaging Easier

C-4440

RESEAL Green: Reduce, Reformat, or Recycle

www.sealstrip.com

Discover green solutions for convenience features in flexible packaging - from recyclable VerdeSeal, to material reductions with no loss in line efficiency or package integrity, to potential CO2 reductions! Our easy open, resealable systems are innovative, lightweight pressure-sensitive materials & retrofit applicators for your wrapper or bagger.

tc • TRANSCONTINENTAL PACKAGING

SU-7270

Industry Leading Flexible Packaging Solutions

www.tc.tc/packaging

Showcasing our vieVERTe® line of sustainable flexible packaging. Through dedicated R&D expertise, structure development, and the latest technology, our vieVERTe® line includes recycle ready, compostable, and PCR packaging solutions for multiple markets. We are committed to developing sustainable solutions to support our clients and consumer demands.

TOTAI AMERICA, INC.

SU- 7650

Sustainable Packaging Solutions by Totai

www.totai.us

Totai offers mono-material PE pouches and roll stock film customized with varying levels of barriers to meet specifications required for preservation of the contents. We provide recyclable materials preapproved by the How2Recycle Organization. Totai America, Inc. is a member of PMMI, the Sustainable Packaging Coalition and How2Recycle Organization.

WestRock

C-2023

Innovate Boldly. Package Sustainably.™

https://www.westrock.com/automation

WestRock is using leading science and technology to innovate boldly and package sustainability. From our broad range of renewable and recyclable paper substrates to our cutting-edge packaging machines, we offer integrated, end-to-end capabilities that help our customers meet their sustainability goals.

DOMINO

C-1614

Sustainable Marking Solutions

www.domino-printing.com

From opportunities to reduce waste with coding and labeling solutions powered by automation and vision systems to printers that use vegetable oil-based ink, Domino helps customers on their sustainability journey. Learn about diaper manufacturer Hello Bello's journey towards sustainable manufacturing and packaging at www.growwithdomino.com.

LinMot®

C-5414

Sustainable Motion Powers a Greener Future

www.linmot.com

LinMot USA's electric linear motors are a sustainable solution that provide over 95% energy savings and reduce CO2 emissions by 97% compared to pneumatic cylinders. Since they have fewer moving parts compared to air cylinders, maintenance and total cost of ownership are minimized.

PORTCO PACKAGING

N- 9835

Sustainable Solutions for your Brand

www.earthguard.solutions

We created the EarthGuard line to meet customers' sustainability priorities, whether they need a compostable package, recycle-ready, post-consumer recyclable (PCR), and coming soon, a Bio solution. These different options allow customers to pick what best fits where they are on their journey to sustainability.

Connect and Collaborate Across Every Segment of the Circular Supply Chain

Packaging Recycling Summit brings together all stakeholders in the sustainable packaging and package recycling marketplace.

If you're a brand owner, retailer, MRF professional or reprocessor, converter or materials hauler, our conference program is designed for you!

Curated by the editors of *Packaging World*, the leading media brand serving the packaging community for nearly 30 years, the content for this multi-day event will cover topics such as:

- The Economics of Recycling
- Policy and Regulation
- Materials and Design Innovation
- Sortation and Recyclability

For more information and to register, please visit: **PackagingRecyclingSummit.com**

GARVEY By Columbus McKinnon

www.garvey.com

Infinity Accumulator

The Infinity Accumulator uses patented designs to accumulate and single-file even the most unstable of products.

Bi-Flo Accumulator

By utilizing opposing conveyor movement, the Bi-Flo creates a buffer for product accumulation in a compact footprint.

Infinity Rx Accumulator

The Infinity Rx is designed to handle products such as vials, which are too small for standard accumulators.

Automatic Vial Dryer

This revolutionary system dries vials of all sizes in minutes, far surpassing the industry standard.
