

2027 ProFood World Content Calendar

*Readers Study Conducted for specified Issue.

Issue	Cover Story	Tech Today	Plant Floor New Products	Solutions Features	Special Coverage
February Ad Close: January 8 Materials Due: January 15	Changeover Reduction - Digital recipe management - Electronic work instructions - SMED software tools	Operational Technology Security - OT network segmentation - Secure remote access	- Size Reduction Equipment: Slicers, Cutters, Dicers, Shredders - Conveyor and Conveyor Belting - Forming and Portioning Equipment - Vertical Form, Fill and Seal Equipment - Metal Detectors, Checkweighers and X-Ray Inspection Equipment - Pressure, Temperature and Level Measurement	Liquid Processing Solutions - Heat Exchange - Kettles, Tanks & Process Vessels - Mixing, Blending and Homogenizing Equipment	Case Studies In-Depth Plant Profile Industry Veteran Perspective Packaging Technology
April Ad Close: March 3 Materials Due: March 12	Automation ROI - Where cobots work best in food plants - Robotics beyond end-of-line packaging - The next generation of palletizing	Energy & Resource Management - Real-time energy monitoring - Smart compressed air systems	- Remote Monitoring - Ovens - Dryers and Fryers - Compressors and Blowers - Data Management - Electrical Components: Fittings, Connectors, Ties, Conduit	Dry Processing Solutions - Minor/Micro Ingredient Handling - Tubular Drag and Chain Conveyors - Airlocks, Bin Activators, Gates/Valves and Dry Conveying Components - Screening Equipment	Case Studies In-Depth Plant Profile Industry Veteran Perspective Packaging Technology
June Ad Close: May 7 Materials Due: May 14	Utility Cost Reduction - Water management technologies - Heat recovery systems - Utility analytics software	Industrial Software & Data Systems - SCADA modernization - The convergence of OT and IT	- High Pressure Processing - Batching/Weighing - Engine Room: Compressors, Water Heaters and Boilers - Centrifuges and Separators - Retort/Thermal Processing - Coating and Enrobing Equipment	Refrigeration & Freezing Solutions - Mechanical Freezing and Chilling Equipment - Cooling/Chilling Equipment - Low-charge Ammonia Systems	Case Studies In-Depth Plant Profile Industry Veteran Perspective Packaging Technology
August* Ad Close: July 2 Materials Due: July 10 PEI Show Issue	AI Applications - AI-driven production scheduling - AI governance in food plants	Robotics & Motion Control - Autonomous mobile robots in manufacturing - Servo technology trends - Automated line adjustments	- Washing Equipment for Parts, Totes, Bins, Pallets, Pails - Stainless Steel Piping and Fittings - Wastewater Treatment and Pollution Control Systems - Lubricants - Depositing and Filling Equipment - Color Coded Tools - Mops, Bins and Shovels	Dry Processing Solutions - Pneumatic Conveying - Magnetic Separation - Bulk Bag Filling, Conditioning and Discharging	Case Studies In-Depth Plant Profile Industry Veteran Perspective Packaging Technology
October Ad Close: August 27 Materials Due: September 3	Traceability - Serialization technologies - Warehouse management systems - RFID and next-generation tracking	Smart Manufacturing Systems - Real-time OEE platforms - Production intelligence software	- Building Control Systems - Worker Safety Products - Spraying/Washing Equipment and Nozzles - Hoses/Washdown Stations - Pest Control	Refrigeration & Freezing Solutions - Cryogenic Freezing and Chilling Equipment - Condensers and Evaporators - Refrigeration Compressors	Case Studies In-Depth Plant Profile Industry Veteran Perspective Packaging Technology
